iCloud: Maps History iOS 11 and 12

October 2019

File name Maps History iOS 11 and 12.csv

File description This file logs the user's history of searches and interactions within Apple Maps. Up to 50 searches and interactions are stored on the user's device and synced to iCloud. These will be deleted after 30 days.

Why Apple keeps this information Apple retains this information in order to provide the user access to their Maps history across all their devices and to improve suggestions for Maps.

Field Name	Details
Type	The type of search or interaction (e.g., search query, directions, place)
Timestamp	Time when the search or interaction was created
User Query	Search string entered by the user
